

National Severe Weather Warning Service

Chief Forecasters Assessment

A plume of warm, moist air is expected to move northwards and eastwards across Scotland through the course of Thursday, with areas of thundery rain becoming more widespread. Over Scotland 20-30 mm is expected in many parts within the warning, and locally over 50 mm - much of this within a period of 3-6 hours.

The Met Office have issued a **Yellow Warning of Rain**

Valid from **06:00 on Thu, 28th Jun 2012** until **23:59 on Thu, 28th Jun 2012**

After heavy rain in parts of southern Scotland overnight, further areas of thundery rain will move north during Thursday. The rain is expected to become heavy and persistent during the afternoon and evening. The public should be aware that localised surface water flooding may develop in some areas.
