

FPUK86 EGRR 010630
Forecast for the UK.
Issued by the Met Office
at 0700 on Tuesday 1 March 2005

** Valid for Broadcast at 0858 **

Here is the forecast for the United Kingdom until dawn tomorrow :
England and Wales, cold with further outbreaks of rain, sleet and snow, but some bright or sunny spells at times in the north and west. Scotland and Northern Ireland also cold with sunny spells and wintry showers, but with longer spells of rain, sleet and snow over parts of Scotland slowly clearing southwards.
Cold and frosty tonight with ice on untreated roads. Wintry showers in the north, further rain, sleet and snow in the south.

Outlook for Wednesday and Thursday:
Sunny spells and wintry showers on Wednesday then frosty overnight. Mainly dry with some sunshine Thursday but with cloud and rain in the north later.
