METEOROLOGICAL OFFICE

CLIMATOLOGICAL MEMORANDUM No 46PART C

Records and documents for Scottish stations stored in the Archives of the Meteorological Office, Edinburgh, are listed by counties and in alphabetical order, under the various types of record or document, thus:

- CM No 46A: Monthly Climatological Returns
- CM No 46B: Daily Registers of Observations
- CM No 46C: Autographic Records
- CM No 46D: Tabulations from Autographic Records

This method of listing has been adopted, in preference to other methods, for the following reasons:

- a. While the lists are complementary, each is self-contained. It is thought that one combined list would be over-elaborate and confusing.
- b. A rough geographical picture is presented.
- c. Some doubts exist as to the homogeneity of different sites at some stations, especially at stations with long records. While every care has been taken to identify sites it has not been possible, due to the passage of time, to note minor changes of site and/or of exposure.

For the sake of simplicity, and to avoid a mass of detail, particulars of instrumentation and the elements observed have not been included in the lists as this in turn would involve further details of gaps in the information, such occurrences being particularly frequent in the earlier periods. It is left to the user to investigate further details if he so wishes.

This Part (Part C) lists all the autographic records stored in the Archives under sub-headings as follows:

ANEMOGRAMS	Pages 1 - 6
BAROGRAMS	Pages 7 - 16
THERMOGRAMS	Pages 17 - 22
HYGROGRAMS	Pages 23 - 26
HYETOGrams	Pages 27 - 30
SUNSHINE CARDS	Pages 31 - 37

Abbreviations used are:

- PTA - Pressure-tube Anemograph
- E - Electrical Anemograph
- RC - Robinson Cup Anemograph
- c - Present time (but often 2-3 months in arrears)

This Part has been up-dated to7/12/70.....

3 8078 0002 3335 5
