DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Saturday, 11 June 2022 at 05:18 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels are expected to be mostly Low across the UK today, with windy conditions for many places. However, elevated pollution levels are currently being observed in parts of South Wales.

Tomorrow: Sunday Low levels of air pollution are expected across the UK, with windy conditions persisting across the northern UK.

Outlook: Air pollution levels are forecast to remain Low across the UK at first. Later in the period, with light winds, there is an increasing chance of areas of Moderate pollution developing across England, especially central and eastern areas.
