

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Wednesday 28 Dec 2016

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Thursday will be mostly dry with early fog slow to clear through the day and it'll remain cold in these spots. It'll be generally cloudier than on Wednesday with some sunny spells during the afternoon, mainly in the west. Conditions will also turn windier with some light rain at times in the north of Scotland.

Outlook for Friday and Saturday:

It'll be mostly dry on Friday, but rain will slowly move southwards across Scotland. Remaining dry and cloudy to the south. The rain will continue edging southwards through Saturday. It'll remain dry and cloudy to the south with colder and clearer conditions to the north.
