

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Sunday 06 Sep 2009

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Overnight rain eases during the morning with only isolated showers continuing past midday, and most parts of the United Kingdom will have an entirely dry day with some sunshine. It becomes cloudier in Northern Ireland and Scotland in the afternoon with a chance of rain in the evening.

Outlook for Tuesday and Wednesday:

The weather turns wet and windy in the north and west on Tuesday, with a chance of severe gales and heavy rain over high ground in some parts of western Scotland. It stays drier in the south and east and most of the UK will be dry with sunny periods on Wednesday.
