

Storm Fionn

Storm Fionn was the seventh named storm of the 2017/2018 winter, named by Met Éireann for a period of strong winds that affected the Republic of Ireland on 16 January.

Strong winds were recorded, especially across western counties, with the highest gust of 85 mph at Mace Head, Galway.

Storm Fionn - Maximum gust speeds (mph)

Site name	Area	Max gust (mph)
Mace Head	Galway	85
Sherkin Island	Munster	74
Valentia Observatory	Co. Kerry	71
St. Mary's Airport	Isles of Scilly	70
Aberdaron	Gwynedd	64

Gusts reached in excess of 60 mph around exposed western coastlines of the UK but impacts here were limited. Northern Ireland, on the other hand, experienced some travel disruption from heavy squally snow showers leading to some lying snow.
