

Forecast For The United Kingdom
Issued by Met Office Exeter
at 0700 on Wednesday 21 Jul 2010

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:
Cloudy with heavy thundery rain across southern and central Scotland and Northern Ireland. Drier in northern Scotland. England and Wales will be drier and sunnier with scattered heavy, thundery showers. Many areas of England and Wales will become dry this evening, although some heavy showers will spread to the west later tonight. Rain will ease across Scotland and Northern Ireland.

Outlook for Thursday and Friday:
Scattered heavy, thundery showers will breakout across many parts of England and Wales, although with some bright spells. Scotland and Northern Ireland will be mainly dry and sunny. Showers in the southeast of England on Friday, drier and brighter elsewhere.
