Here is the forecast for the United Kingdom for daytime tomorrow :
Saturday:-Central/S.England dry with sunny spells. Elsewhere, rather cloudy with occasional bright/sunny intervals, best in the east. Patchy, light rain/mist/hill fog over western coasts and hills, may spread to central/northeastern Scotland PM. Heavier showery bursts likely NW.Scotland at first with more persistent rain over western Scotland later. Northern Ireland, mainly dry but some patchy light rain likely over northern coasts. Humid for most, and warm or very warm.

Outlook for Sunday and Monday:
Some cloud and rain in the northwest initially, otherwise largely dry with spells of warm or very warm sunshine, albeit becoming hazy in the south. Fresh winds developing in the south on Monday.
