

The image shows the front cover of an antique book. The main part of the cover is bound in dark brown leather, which is heavily worn, cracked, and discolored. There are several rectangular sections of marbled paper pasted onto the leather. The marbling features a complex, organic pattern of green, red, and yellow veins on a dark background. The edges of the cover are frayed and the leather is peeling in some places, particularly along the right side and bottom. A small white label with handwritten text is attached to the bottom left corner.

Lowest on 30 th 29.50	Lowest on 1 st 26°
Range 0.88	Range 38°.
Mean of Month 30.08	Mean daily do 16.7.
	Mean of month 43.5.
Gales on 2 days, the 16 th and 17 th .	5 deg below the general Average.
Prevailing winds NE, SE, and NW. - 12 days NE.	Fine days 20 in number Rain fall .91 of an inch.

A harsh, churlish, and ungenial month, with but little rain, and vegetation re-
mains very backward; yet it proved
very favourable for completing the
Spring seeding, as also for general
work upon the lands; but a trying
time through the lambing season,
both for the flocks, and their attendants.

No gales during the month.				4.4° below Average.		
Prevailing winds the SW and W.				Five days 19, in number, Rainfall 4.21 Inches!		

This was a seasonable month, but a moderate heat, and a bountiful supply of rain when so much needed after the long drought. This was a great blessing in very many ways, but only unfavourable for the later haymaking. Good yields were secured, and the cornfields promise fairly in most cases, as to the cereals, but less so with pulse.

Fine days 13 in number.
Rainfall 3.29 inches.

This was a notable month for frequent thunderstorms of a terrific character, and for the lack of sun, a gloomy and trying period for the prosecution of harvest labour. And the gale winds shook out much of the grain from the uncut wheat in the last week, meanwhile much of the barley crops were laid flat, and discoloured by the previous storms.

Lowest on 13th 29.32
Range 1.38
Mean of month 29.93
Gales on 5 Days,
more violent in the
Southern Counties.
Prevailing winds S & SW

Thermometer.
Highest on 1st 66°
Lowest on 31st 30°
Range 36°
Mean daily range 41.81
Mean of month 51.52.
Very near Average.
Fine days 15 in number.
Rainfall 2.57 in.

This month was warmer till the 27th and
to the 17th very warm, thence to the 26th strong gales,
with frequent rain; the West and South of Eng-
suffered much from extensive floods, during
the month, while with us the rains were
merely the usual Autumnal supply, and
we had not a frost till the 31st. Colder on the
last 3 days, and a sudden great rise of Barometer.

Barometer.

Highest on this 5.30.67

Lowest on 11.28.67

Range 2.00.

Mean of month 29.96

One severe gale on the 11th day.

Thermometers.

Highest on the 19th 56°

Lowest on 20th 28°

Range 28°

Mean daily range 8.88

Mean of month 42.53

First 3 weeks above the average, and the entire month about the true average.

Pervalent winds S, SE, & SW, but much divided.

Fine days 16 in number. Rainfall 1.91 inch.

To the 20th very mild, but an awful gale on the 11th to be long remembered, yet partly a fine and favourable time early in the month for wheat seeding. After the 20th to the end, not so mild, but reasonable, with some gentle rain at times, and some fogs, but very little frost, and what mornings there were of these, fell on the last 6 days.

December 1891.

Five days 15 in number,
Rainfall 2.61 inches.

Extremely mild and stormy to the 16th with
some heavy gales from Southward.

From 17th to 25th, severe frosts, but very fine.
A sudden change on the 26th to a moderate
mildness, thence to the end mostly rather
stormy and unsettled, but far opposite
to the previous Christmas.

Summary of 1891.

Highest Barom Feb 4th 30.71.

Lowest do Nov 11th 28.67.

Coldest Jan 10th Therm 6th.

Hottest June 26th

July 17th } all at 78°.

Sept. 10th and 12th

Five days 229 in number,

Rainfall 22.03 inches.

January 1892.

5th below Average.

Winds prevalent most
NE and NW.
Fine days 19. in number,
Rainfall 1.23 inch.

This was a cold ungenial month, the first
two weeks especially. A few mild days in
the third week, then unsettled to the close,
very little rain, but a preponderation of
a cold and churlish state of atmosphere,
and a peculiar monotony of haze and gloom;
yet the 31st gave a brilliant treat of sunshine.

Barometer.
Highest on the 1st 30.50
Lowest on 16th 29.62
Range 0.78
Mean of month 30.11
No gales during
the month.

Thermometer.
Highest on the 4th 74°!
Lowest on 15th 23°
Range 51°
Mean daily range 22.2
Mean of month 43.778°
4.2° below Average.

Prevailing winds NW,
NE, and SW. Fine days 20 in number,
Rainfall 1.35 inches

The first week of this month was very
shocking with some very genial sunshine
and heat to start vegetation, but the middle
of the month was churlish, and often cold,
then again warmer till the 24th, but varia-
ble and unsettled near the close, but the
month ended fine and bright, yet with but
scant display of vegetation's progress.
Thus far a very late spring.

May 1892.

Barometer.
Highest on 10th & 11th 30.32
Lowest on 28th 29.74
Range 0.58
Mean of month 30.08

Gales on 3 days.

Prevailing winds the
SW, and West.

Thermometer
Highest on the 17th 80°
Lowest on 11th 40°
Range 40°
Mean daily range 17.19
Mean of month 60.29

3 1/4 under Average nearly.

Fine days 20 in number,
rainfall 3.32 inches.

This was the warmest period of this year, yet in
May we had the hottest days. August to the 19th was
very fine, and from the 12th to 17th very hot. Much rain
and severe thunder on 18th and 19th. Again very hot from
the 21st to 25th. Thunder storms again on 23rd night.
A great rain on 28th, then sultry to the end
electric and breezy from Southward; a peculiar
condition, but not bad for the Harvest.

September 1892.

Sept.	Baro met.	Wind	Therm min 9 max	Character	Notes	Rain

Thermometer.

Highest on the 13th 71°
Lowest on 18th 37°
Range 34°
Mean daily range 14.7°
Mean of month 56°

No positive gales
in the month.
SW - W - and S.

Prevailing winds
as above stated.

3° below Average.

Fine days 23 in number,
Rainfall 3.86 inches.

Most of this month was fine and pleasant
and especially up to the 20th, when there was some
thunder, and a great rain on 21st, again fine and
warm to the 28th, afterwards stormy to the
end, and great rain on the night of the 29th.
Thus it proved a month of opposite charac-
ters, and yet mainly very fine. At 3.50
rain on 21st was .04 at Norwich, while we had 2.02 in!

October 1892.

Mean daily range 10.35
Mean of month 45.546
6 1/2 below Average.

Prevailing winds the West and SW.
Fine days 14 in number.
Rainfall 6.59 inches.

This month was marked for its low temperature and repeated glut of rain causing unusual floods; yet we had 14 fine days, and some very bright and pleasant, especially the 26th, 29th & 30th. Then the contrast of wet and gloom on 31st was notable. The laden skies absorbed the solar heat so much, that we had none of the lovely brilliant periods which so often warmed us in October in past years. This was a most trying season for wheat seed, storing Beet, and clearing lands,

Range 0.62
Mean of month 30.10
Gale one day, on the 30th only.

Thermometer
Highest on the 15th 57°.
Lowest on 21st 31°.
Range 26°
Mean daily range 9.2
Mean of month 44.37
1.37 above Average.

Predominating winds the S, SE, and NW.

Fine days 22 in number.
Rainfall 1.63 Inch.

This was a mild month, and fine for the season, especially the latter half. It was favourable for the labour which was hindered in the previous month by the wet, and altogether highly beneficial after the excess of rain in October. The fall of the foliage was premature and abrupt, so that a complete winter aspect was assumed over the woodlands before the 20th day.
