

Forecast For The United Kingdom
Issued by Met Office Exeter
at 0700 on Thursday 07 May 2009

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:
Scotland and Northern Ireland will be windy with gales in the northwest. Heavy showers are likely this morning with rain this afternoon. Much of England and Wales will be sunny, but cloudier in southern England with a little rain. Most parts will have showery rain tonight, although Southeast England should stay dry.

Outlook for Friday and Saturday:

All parts will have sunny spells on Friday and Saturday, but also occasional showers. These will be heavy at times with a risk of thunder, especially in the north and west. It will be windy on Friday with a risk of gales in the north.
