

FPUK85 EGRR 051600  
Forecast for the UK.  
Issued by the Met Office  
at 1600 on Thursday 5 August 2004

\*\* Valid for Broadcasts Between 1800 and 0600 \*\*

Headline:

Showers/thunderstorms slowly dying away. Warm/humid. Dull/misty near east coasts.

This Evening and Tonight:

Showers and thunderstorms gradually clearing from England and Wales, but with further heavy, showery rain in the north.

Friday:

Sunny spells and isolated showers but many places staying dry. Patchy mist and low cloud near east coasts.

Outlook for Saturday:

Isolated showers in the north and west otherwise dry with sunny spells, but an increasing risk of thundery showers in the southeast.
