

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 0700 on Friday 01 Jul 2011

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:  
Sunshine for most this morning across the UK, but cloudier across northwestern areas such as Northern Ireland and western Scotland. Elsewhere cloud will develop through the day, with some showers down the east coast of the country, and maybe one or two light showers in some western areas too.

Outlook for Saturday and Sunday:

Fine and dry days for most, although always cloudier and wetter in northwestern areas. Starting sunny each day, with cloud growing through the days, but retaining sunny spells for most. Becoming steadily warmer, particularly in the southeast, with little or no wind.
