++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Most places will be fine and dry with a mild southwesterly breeze and some sunny spells. It will feel pleasantly warm in the sun too. However, outbreaks of rain will affect the far north of the UK at first, and it is expected to turn increasingly cloudy and wet across southern parts later in the day.

Outlook for Tuesday and Wednesday:

Wet and windy conditions will quickly spread northwards during Tuesday, followed by sunny spells and blustery showers, some of these quite heavy across western Britain. Sunshine and showers are expected on Wednesday too, heavy in places again and still quite blustery.
