

Forecast For The United Kingdom
Issued by Met Office Exeter
at 0700 on Tuesday 23 Jan 2018

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:
Mostly cloudy with outbreaks of rain, which could be heavy at times, mainly over western hills. Turning brighter in the north and west later though, with some heavy showers. A very mild day, particularly in the south and east. Windy for most too. Rain will spread across northern and western areas tonight, although the southeast staying mostly dry.

Outlook for Wednesday and Thursday:
Very windy for most, with severe gales likely for northern Scotland. Heavy rain will spread southeast across England and Wales, with brighter and showery conditions in the northwest. Turning colder, with sunshine and showers on Thursday, possibly turning wintry over northern hills.
