DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Wednesday, 02 December 2020 at 05:46 local time

**Air Quality Forecast for the UK**

Issued by the Met Office

Today: A cold front will sink southeastwards gradually on Wednesday, replaced by cold and showery air from the northwest with a chance of snow showers. Air pollution levels are expected to be Low throughout.

Tomorrow: Thursday will see more organised rain and hill snow arrive from the southwest. Air pollution levels are expected to remain Low for all throughout.

Outlook: An unsettled and windy spell with rain and snow from Friday until Sunday. Air pollution levels are expected to be Low across the UK through the period.
