DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Friday, 03 June 2022 at 03:52 Local time

**Air Quality Forecast for the UK**

Issued by the Met Office

**Today:** Predominantly Low levels of air pollution are expected across the United Kingdom today, however light winds in the south of England will allow areas of Moderate air pollution to develop, especially near busy roads and urban centres.

**Tomorrow:** Low levels of air pollution are expected across much of the United Kingdom tomorrow, however areas of Moderate air pollution may develop across parts of central southern England.

**Outlook:** Generally Low levels of air pollution are expected through the outlook period with just isolated pockets of Moderate likely.
