

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Friday 02 Apr 2010

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Scotland and Northern Ireland will be cloudy with outbreaks of rain which could be locally heavy. England and Wales will see a mix of sunshine and showers. The showers will be heavy with a risk of thunder. With light winds though it should feel pleasant in any sunshine.

Outlook for Sunday and Monday:

Scattered showers on Monday will become confined mainly to eastern parts of Scotland and England during the day with the best of the sunshine in the west. On Monday it becomes wet and windy for Scotland and Northern Ireland with drier and brighter, but still breezy weather, for England and Wales.
