

Forecast For The United Kingdom
Issued by Met Office Exeter
at 0700 on Wednesday 16 Jul 2008

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:
Cloudy in the north of the UK with rain at times. Drier in the south with some bright or sunny spells during the morning, though cloud will thicken during the afternoon with outbreaks of rain spreading from the west. Cloudy for all parts overnight with rain or drizzle at times.

Outlook for Thursday and Friday:

There will be a good deal of cloud around on both Thursday and Friday with spells of rain spreading in from the west, this will be locally heavy at times in northwestern areas in particular. Rain is expected to clear south-eastwards on Friday followed by brighter showery weather.
