

FPUK85 EGRR 040400  
Forecast for the UK.  
Issued by the Met Office  
at 0400 on Thursday 4 August 2005

\*\* Valid for Broadcasts Between 0600 and 1200 \*\*

Headline:

Showers in the north. Rain spreading into western areas.

Today:

Showers in the northwest. Mainly dry with a bright start elsewhere, but cloud and rain extending across western then central parts later.

Tonight:

Rain over much of Wales, England and southeast Scotland, easing from the northwest later.

Outlook for Friday:

Rain clearing away from south and east England early. Mist and drizzle giving many a murky start, but brightening up. Showers over Scotland easing
