

FPUK85 EGRR 201000  
Forecast for the UK.  
Issued by the Met Office  
at 1000 on Tuesday 20 January 2004

\*\* Valid for Broadcasts Between 1200 and 1800 \*\*

Headline:

Some rain becoming mostly confined to the north and east.

Today:

Generally cloudy skies are expected with many areas having some rain, although this should become mostly confined to northern and eastern areas.

Tonight:

A mild, cloudy night will bring some rain, especially in more eastern areas of England and Scotland with patchy drizzle further west.

Outlook for Wednesday:

Generally cloudy and mild with some rain and drizzle, but with a little brightness in places.
