

FPUK85 EGRR 020400
Forecast for the UK.
Issued by the Met Office
at 0400 on Thursday 2 June 2005

** Valid for Broadcasts Between 0600 and 1200 **

Headline:

Rain at times Scotland/Northern Ireland. Inland England/Wales becoming drier/brighter/warmer.

Today:

Rain at times across Scotland and Northern Ireland but some drier spells in places. England and Wales becoming brighter and warmer inland with hazy sunshine in places, although mist, fog, low cloud and drizzle will persist near southern and western coasts and hills.

Tonight:

Cloudy, humid. Rain at times in the north and west.

Outlook for Friday:

Sunny spells developing but also heavy showers.
