

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Saturday 02 May 2009

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Early morning rain will clear a from East Anglia and Kent by mid-morning. Most places then will have sunny spells and scattered mostly light showers. There could be some heavier showers near North Sea coasts during the afternoon. As rain move into western Scotland, showers will die out by early evening.

Outlook for Monday and Tuesday:  
After a dry start across southeastern England all parts will be cloudy with outbreaks of mostly light rain. It will be breezy, particularly in the north. Scotland and Northern Ireland stay cloudy with rain on Tuesday but England and Wales will be mostly dry and bright.
