DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Wednesday, 18 November 2020 at 05:30 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Strong winds and outbreaks of rain through Wednesday will ensure that air pollution levels remain Low across all parts of the UK.

Tomorrow: Despite winds easing a little, it will stay rather breezy on Thursday, with colder and largely sunnier conditions developing. This will keep air pollution levels Low.

Outlook: An unsettled end to the week, with most parts seeing strong winds at times and further spells of rain. These changeable conditions will lead to Low air pollution levels persisting.
