

METEOROLOGICAL OFFICE

CLIMATOLOGICAL SERVICES (Met.O.3)

CLIMATOLOGICAL MEMORANDUM No. 46(A)

SCOTTISH METEOROLOGICAL RECORDS/DOCUMENTS STORED IN
MET.O. EDINBURGH ARCHIVES

Records and documents for Scottish stations, stored in Meteorological Office, Edinburgh (Archives), are being listed by Counties and in alphabetical order under the various types of record/document. Thus

No. 46(A) lists Monthly Climatological Returns of Daily Observations,

No. 46(B) Daily Registers of Observations,

No. 46(c) Autographic Records

and so on.

This method of listing has been adopted in preference to other methods for the following reasons:-

- a. Some doubts exist as to the homogeneity of various sites at some stations, especially those with long records.
- b. While the lists are complementary each is self-contained. It is thought that one combined list would be over-elaborate and confusing.
- c. A rough geographical picture is presented.

While every care has been taken to identify sites it has not been possible to note minor changes and/or changes of exposure due to the passage of time. For the sake of simplicity, and to avoid a mass of detail, particulars of instrumentation and the elements observed have not been included in the lists as this in turn would involve further details of gaps in the information, such occurrences being particularly frequent in the earlier periods. It is left to the user to investigate further details if he so wishes.

Abbreviations used are:

N/R = no record

C = current (i.e. to December 1964)

? or N/K = not known
