

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Saturday 06 Oct 2007

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Southern Scotland, parts of Northern Ireland and Northern England will remain rather cloudy with the risk of a spot or two of rain through the day. Elsewhere though, it will be dry, with occasional brightness, but often fairly large amounts of cloud. Generally light winds.

Outlook for Monday and Tuesday:

Monday will again be fairly cloudy in many places, but dry with some brighter spells- though it will turn wet in N.Ireland later. Rain will cross many parts on Tuesday, with some heavy bursts possible too. It should turn more showery later in the west.
