DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Monday, 13 June 2022 at 05:31 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels are expected to be Low across the whole of the UK.

Tomorrow: Areas of Moderate air pollution may develop across central and southern parts of England on Tuesday, due to light winds allowing the accumulation of locally emitted pollutants. Elsewhere in the UK, Low.

Outlook: Air pollution levels may become widely Moderate in central and southern Britain, with prolonged periods of light winds and warm, sunny weather. Air pollution levels remaining generally Low elsewhere.
