Here is the forecast for the United Kingdom for daytime tomorrow:
Much of the UK will see a fine day with good spells of sunshine. It is likely to feel chilly though, especially across England and Wales, where there will be a brisk northwesterly wind. However, across southeast England it will remain generally cloudy and windy with further spells of rain and sleet.

Outlook for Tuesday and Wednesday:
Outbreaks of rain and strong winds in the southeast will slowly clear through Tuesday, with most places fine and dry for a time. However, wet and windy conditions will spread into northwestern parts later and will then spread southeast across the UK on Wednesday.
