DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Thursday, 25 May 2023 at 05:29 Local time

#### Air Quality Forecast for the UK

Issued by the Met Office

Today: Low levels of air pollution are generally expected across the UK today, but isolated patches of Moderate are possible in the south due to light winds.

Tomorrow: Air pollution levels are generally expected to remain Low on Friday, but isolated patches of Moderate are possible once again, as settled conditions continue.

Outlook: Air pollution levels will be mostly Low across the UK. However, Moderate levels will occasionally affect parts of England and Wales, most likely on Saturday, with stronger winds on Sunday and Monday reducing the likelihood of this.
