Here is the forecast for the United Kingdom for daytime tomorrow:  
Tuesday will see more in the way of cloud than we had on Monday, but still with some bright or sunny spells for many, especially by the afternoon. Despite the additional cloud it will remain dry for most. Although rather breezy at times, especially near the coast, it'll feel a little warmer than on Monday.

Outlook for Wednesday and Thursday:

It will remain rather cloudy through Wednesday and Thursday, although also some bright or sunny intervals are still likely. A few, mainly light, showers are also likely on Thursday, mainly in the east. The fresh easterly breeze will persist, helping to enhance the cooler feel.
