Here is the forecast for the United Kingdom for daytime tomorrow:
Many places can expect a good deal of fine and warm weather, although a few showers are likely to break-out inland during the afternoon and evening. However, the heat of the day will also lead to a few thunderstorms across parts of eastern England later in the day. Cooler and often misty around Irish and North Sea coasts.

Outlook for Sunday and Monday:
Sunday will be fairly similar to Saturday, though it is set to turn cloudy and rainy across eastern Scotland during the afternoon. Remaining generally warm and humid for Monday and Tuesday, though turning more widely showery or thundery across the United Kingdom.
