

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 0700 on Sunday 03 Mar 2013

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:  
Rather cloudy on the whole across the UK today, though the cloud will be fairly thin in many areas, with some sunny spells possible almost anywhere. The best of the sunshine likely for western parts of Wales. A little rain, mainly for northwest Scotland. A largely cloudy night, but dry for most.

Outlook for Monday and Tuesday:

A cloudy start for many on Monday, but a good chance of seeing some sunshine develop, especially across England and Wales. Thicker cloud persisting though for Northern Ireland and northwest Scotland. Largely dry and bright on Tuesday with some sunny spells,.
