

FPUK86 EGRR 010630
Forecast for the UK.
Issued by the Met Office
at 0700 on Thursday 1 July 2004

** Valid for Broadcast at 0858 **

Here is the forecast for the United Kingdom until dawn tomorrow :
Some cloud and showers initially, especially over western areas, but sunny spells are likely elsewhere. Cloud will soon bubble up though with showers becoming widespread, heavy and thundery at times, especially over northeast Scotland and eastern England. Fairly breezy and feeling rather cool. Rain in the south and west tonight, dry elsewhere.

Outlook for Friday and Saturday:

Cloudy with showery rain on Friday morning. Becoming brighter from the west during the day, but still showery with some heavy and thundery outbreaks. Breezy, especially in the south, and feeling cool. Showers everywhere on Saturday with some heavy outbreaks, mainly in the north. Still cool and breezy.
