

FPUK85 EGRR 111000
Forecast for the UK.
Issued by the Met Office
at 1000 on Sunday 11 January 2004

** Valid for Broadcasts Between 1200 and 1800 **

Headline:

Showers, then very wet, very windy weather reaching the southwest.

Today:

There will be sunny intervals and blustery showers around, especially in more western and northern regions, with some turning wintry on northern hills.

Tonight:

Showers will become mostly confined to western and northern areas before gales and torrential rain moves from the southwest after midnight.

Outlook for Monday:

Most northern areas will be showery, while the south has torrential rain and some damaging winds.
