

Forecast For The United Kingdom
Issued by Met Office Exeter
at 0700 on Sunday 14 Jul 2013

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:
Early mist and fog over eastern England will clear, leaving much of the UK dry and sunny. A very warm day then follows, with it soon feeling hot again in the south. However cloudy, damp and cooler weather will continue across northern Scotland. A mostly clear night then follows, although mist and low cloud will edge into western coasts.

Outlook for Monday and Tuesday:

It will stay very warm, with a good deal of dry weather and sunny spells, especially in the south. Although some coastal areas will be again be cooler and cloudier. Largely damp and breezy weather over northern Scotland will also persist.
