

Forecast For The United Kingdom
Issued by Met Office Exeter
at 1945 on Tuesday 02 Sep 2008

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:
Many inland parts starting dry with some sunshine. Scattered showers over western coastal areas becoming more frequent during the morning and extending inland. Some showers heavy with a risk of thunder. A period of more persistent rain expected over Wales and northern England during the afternoon. Windy in the south.

Outlook for Thursday and Friday:

Rain or showers for southern England during Thursday with rain over the far north of Scotland. Remaining parts mostly dry at first on Thursday but scattered heavy showers developing during the day. Friday, many central and eastern areas starting dry, but heavy rain and strong winds spreading to all areas.
