

FPUK85 EGRR 021000  
Forecast for the UK.  
Issued by the Met Office  
at 1000 on Tuesday 2 August 2005

\*\* Valid for Broadcasts Between 1200 and 1800 \*\*

Headline:

Rain spreading east across Scotland and Northern Ireland. Fine elsewhere.

Today:

Showery rain spreading across Scotland and Northern Ireland. Elsewhere dry with warm sunny spells.

Tonight:

Showery rain will spread southeastwards across Wales and all but southeast England overnight. Quite frequent showers continuing over western Scotland, but mostly dry elsewhere.

Outlook for Wednesday:

Showery rain clearing from southeast England around lunchtime. Otherwise, sunny spells and showers, most frequent over western Scotland, driest over southwest England.
