DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Saturday, 08 May 2021 at 05:33 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Wet and windy conditions will spread across the UK today, helping to maintain Low levels of air pollution for all areas.

Tomorrow: Showers or outbreaks of rain across the UK will help to keep air pollution levels predominantly Low for all regions. However, there is a chance of pockets of Moderate air pollution across the Northern Isles.

Outlook: Unsettled weather conditions will continue, along with Low levels of air pollution across the UK.
