

FPUK85 EGRR 070400
Forecast for the UK.
Issued by the Met Office
at 0400 on Wednesday 7 December 2005

** Valid for Broadcasts Between 0600 and 1200 **

Headline:

Frost and fog clearing slowly. Rain spreading east during Wednesday.

Today:

Fog clearing, leaving bright or sunny spells. Cloud increasing from the west bringing rain to western Britain during the afternoon.

Tonight:

Rain, some heavy, over western Britain at first, extending eastwards across central and eastern England before becoming lighter then mostly dying out by dawn. Elsewhere mainly dry.

Outlook for Thursday:

Many parts dry with sunny spells. Rain spreading into Northern Ireland by evening.
