

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Friday 05 Jun 2015

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
It'll be cool and blustery tomorrow across Scotland, northern England and Northern Ireland with sunny spells and frequent showers, some of which will be heavy. The further south you go the drier it'll be as we see a breezy day with plenty of sunshine.

Outlook for Sunday and Monday:  
As we head through Sunday the showers in the north will become isolated and the wind will ease. Once again it'll be a fine day across most of England and Wales with plenty of sunshine. On Monday it'll remain dry for many with plenty of sunshine, light winds and just the odd shower in the north.
