++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Cloudy in many areas of the United Kingdom with occasional rain or showers.  
Showers may become heavy during the afternoon over hills of north Wales,  
northeast England, Northern Ireland and eastern Scotland. The best of the  
brighter, drier weather will be in the east and southeast of England, and in the  
far west later.

Outlook for Friday and Saturday:

Mainly dry and bright in many areas on Friday with some showers developing  
later, and some rain in the east at times. Generally becoming dry and bright on  
Saturday although with the risk of a light shower in the south on Saturday.
