Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels will be largely Low across the UK. However some isolated Moderate levels may develop later in the day, due to light winds allowing the build-up of locally emitted pollution, mainly along busy roads in urban areas.

Tomorrow: Air pollution levels are expected to remain Low across the UK, as breezier and more changeable conditions come to dominate.

Outlook: Low levels of air pollution are expected during this period.
