

FPUK85 EGRR 030400  
Forecast for the UK.  
Issued by the Met Office  
at 0400 on Thursday 3 June 2004

\*\* Valid for Broadcasts Between 0600 and 1200 \*\*

Headline:

Rain in north moving southeast. Many southern areas staying dry.

Today:

A lot of cloud generally. Outbreaks of rain, initially mainly in northern parts, reaching some southeastern areas later. Dry and bright in the far south, and turning drier across Scotland and Northern Ireland later.

Tonight:

Rain and drizzle continuing to sink southeastwards, mostly dying away. Otherwise generally dry but cloudy.

Outlook for Friday:

Mainly dry with some warm sunshine developing after a cloudy start.
