

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Friday 07 Aug 2009

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Rain across Northern Ireland and western Scotland will clear to scattered showers and a few sunny spells. Elsewhere across the UK a dry day with a mostly sunny morning before areas of cloud develop in the afternoon. Winds will be light and variable with some onshore sea breezes developing on some coasts..

Outlook for Sunday and Monday:  
Sunny spells in all areas on Sunday but with scattered showers across northern and western areas. Rain and drizzle across northern and western areas on Monday will spread across southern and eastern parts during the day but mostly die out before reaching the southeast.
