

FPUK86 EGRR 031745  
Forecast for the UK.  
Issued by the Met Office  
at 1945 on Friday 3 December 2004

\*\* Valid for Broadcast at 2159 \*\*

Here is the forecast for the United Kingdom for daytime tomorrow :  
England and Wales will be mainly dry with bright or sunny spells.  
However, patchy fog may be slow to clear in some southern counties  
and northern areas will become rather cloudy at times, with drizzle  
near the coast. Scotland and Northern Ireland will be mainly cloudy  
and windy with rain, heavy at times in the west, spreading southeast  
to all parts.

Outlook for Sunday and Monday:  
Most parts will be dry and mild with sunny spells after overnight fog  
patches clear. But Scotland and Northern Ireland will become cloudy  
with rain later on Sunday and will remain cloudy with rain at times  
through Monday.
