

FPUK85 EGRR 041000
Forecast for the UK.
Issued by the Met Office
at 1000 on Sunday 4 December 2005

** Valid for Broadcasts Between 1200 and 1800 **

Headline:

Rain or showers in north and west. Fewer showers elsewhere.

Today:

Generally rather cloudy with showers or spells of rain across many northern and western areas. There should be fewer showers for most southern and eastern parts where the best of the brighter spells are expected.

Tonight:

Rain or showers continuing, mainly in west. Patchy frost and fog, especially across Scotland.

Outlook for Monday:

Rain or showers in west and northeast. Drier and brighter elsewhere.
