

Forecast For The United Kingdom
Issued by Met Office Exeter
at 1945 on Monday 08 Dec 2014

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:
It will be a cold and dry start across much of the country. However, cloud and rain across the northwest will move slowly southeastwards across the UK, reaching southern England by evening. Sleet and snow showers will follow across the north. It will become very windy with severe gales developing across northern parts.

Outlook for Wednesday and Thursday:

It will remain very windy on Wednesday, with widespread gales, severe across many northern and some western areas, Through Thursday, it will remain very windy, although winds will gradually weaken through the day. There will be further frequent showers on Wednesday and Thursday, wintry across northern Britain.
