

Forecast For The United Kingdom
Issued by Met Office Exeter
at 1945 on Saturday 05 May 2007

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:
Sunny spells and scattered showers across Scotland and Northern Ireland, the heaviest showers in the west. It will be very windy across Scotland especially hills and coasts. For England and Wales, outbreaks of drizzly rain in the north and west clearing to isolated showers, some bright or sunny spells developing, a few showers across central and eastern parts later.

Outlook for Monday and Tuesday:
Unsettled and changeable weather with bands of cloud and rain spreading from the west across all parts but followed by sunny spells and scattered showers, most of the showers in the west and north. It will be rather windy at times.
