

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Monday 09 Jul 2012

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
A fairly cloudy day with outbreaks of rain or showers for many. The showers heavy with a risk of hail and thunder, most likely in central areas at first, but more focussed in the east of the UK through the afternoon. More persistent rain in the north.

Outlook for Wednesday and Thursday:  
Scattered heavy, thundery showers on Wednesday, with some more persistent rain in the north. On Thursday, persistent rain will spread from the southwest across England and Wales, with some heavy bursts at times, especially into the afternoon. Becoming locally windy in the south.
