

Forecast For The United Kingdom
Issued by Met Office Exeter
at 1945 on Tuesday 07 Apr 2009

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:
Showers will be heavy in Scotland and northern England during the morning, then easing during the afternoon with some brighter spells coming through. Northern Ireland, England and Wales will be brighter with a few showers, then mainly dry for the afternoon. Strong winds, gusty at first, will steadily ease through the day.

Outlook for Thursday and Friday:

Dry in the east at first on Thursday, then further heavy rain and strong winds will spread across all areas. It will be wet at first on Friday, although winds will ease and then becoming brighter with showers, these heavy in the north and west.
